## **Remote work policy (2023)**

This policy was in effect from June 2023 through January 2024. It has since been superseded by the 2024 remote work policy.

### **Eligibility**

Remote work was limited to 1 day per week and required director-level approval. Direct managers did not have authority to approve remote arrangements on their own.

### **Core hours**

Employees working remotely were expected to be available from 9am to 4pm local time and to respond to messages within 30 minutes during that window.

### **Equipment**

Remote work was performed on company laptops only. Personal devices were not permitted to access company systems.
